It was the annual election of officers, and a delegate to the next international convention, to be held in Philadelphia in June. Out of 170 total membership 146 votes were cast, and while it was one of the quietest elec-tions, nevertheless there was considerable interest shown: Following is the

DEFENDS HIS COMRADES.

Charles K. Gibsen Again Protests Against the Iniquitous Rule.

Editor HERALD: I trust you will not consider me a tore when I again sak for space to consider more fully the tase of the veterans at the Soldiers' flome. It cannot be possible that our ritizens will stand idly by and allow a prosecutives to be perpetrated right under their very eyes. I think it can se clearly shown that the proposed soion of the board of managers, as purished in your columns Tuesday mornng, is a gross outrage, and for that rea-on again I call public attention to it. f I do show that an outrage is about o be committed I trust some of our eading soldiers at least will take proper teps to show their displeasure. oluter cannot appeal to his fellow solliers, who can he appeal to?

muit reads as follows: "All honorably discharged soldiers, allors or marines who have served in he army or navy of the United States luring the late war of the rebellion and who are now disabled by disease, wounds or otherwise, and who have no idequate means of support and by reaton of such disability are incapable of sarning their living, and who would scherwise be dependent on public or

private charity, shall be entitled to be idmitted to said home." This much is very clear. Under in provision of law the present mem-pers of the home have been duly adnitted. Now, the question arises can hey be legally turned out of the some so long as the above conditions ontinue? (an the board admit them. aid the the next noment adopt some ute by which they can discharge them? been not this law clearly state that varie above conditions continue the pidier is entitled to admission, and to emain? Did our state legislature indopt rules which virtually annul the seems clear to me that this is just nat the board has done. It is not lamed that the veterans which they preaten to discharge April 1, have or become able to maintain them-

briefted their rights; they simply say:

You have come into the possession of an income of \$12 a month, and this we egard as being an adequate means of

support. Accordingly, we shall turn jou out to shift for yourselves."

Is an income of \$12 a month an adequate means of support! Scores of these men cannot do an hour's work. It would be difficult for them to even find board at \$12 a month, and then where are the other actual necessaries to come from? Many of them have no relatives whatever or even friends upon nom they can rely for any assistance. Many of them are so diseased or so stany of them are so uncared have seculiar that but few people will have been around at any price. What is to secome of these old men if they are secome of these old men if they are ow preemptorily turned adrift? hey go to the poor house? Suppose tey do, what has been gained or acy do, what has been gained or aved? is not the state much better ble to care for them than the town a county? Many of these men will be Circuland would say, "We are he Mr. Cleveland would say, "We are confronted by a condition not a theory." Here are a number of men who are so diusted that they are dependent upo

the public for support. This ugly fact As I have said cannot be ignored. As I have said be-fore, were they common pumpers the case would be different; but under the law a bountiful provision has been made for them by a grateful state because of noble and precious service rendered to the state. The law has made them wards, and should treat them as such But waiving this, I claim that so long as they come under the condition and provisions by which they were legally admitted they are legally entitled to remain, and cannot

If the board of managers could show that these men are now able to mainhad become possessed of adequate means of support, then they could properly discharge them from the home; but such not being the case, I fail to see why they are not guity of wilfull violation of law. If they are violators of our state law they should receive no more mercy at our hands than any other violators of law receive. This is the point I want our people to consider: Are not the board of managers wilfully violating the laws of Michigan, and are they not robbing the old veterans of certain sacred inalienable rights secured to them by the state? Until our legislature sees fit to revoke or change the law under which the home was built, no considerations of so-called economy can properly be cited in defense of the violation or evasion of said law. Evasion is even worse than open violation

These veterans are entitled to remain in the home or they are not. If they are entitled to remain, and desire to reremain, it seems to me it is a gross outrage upon decency and justice to turn them loose, belpless and friendless, upon a cold and neertless world. "If this be treason, make the most of it!"
CHARLES K. GIBSON.

What is the membership and object of this society? "To promote the interests and work of Christ and the church. The number in St. John is away up in the hundreds, but then numbers don't really count but then numbers don't really count when there's lots of enthusiasm and grit, and say what you will, we En-deavorers have lots of it.
